

## CHEMDUIT™

A FLEXIBLE DUCTING PRODUCT LINE  
ENGINEERED FOR HIGH TEMPERATURE,  
CHEMICAL, SERVICE

A "PTFE" flexible duct with superior chemical resistance, thermal stability, and mechanical strength.

A "PTFE" flexible duct with durable, impervious, interior and exterior corrosion barriers which are available in a variety of thicknesses and with many special features.

A "PTFE" flexible duct containing a strong laminated seal that encapsulates a rugged spring steel coil and joins together the two corrosion barriers.

This flexible ducting can compress 50% of its length without restricting airflow.

**CHEMDUIT™ Flexible Duct with wear strips for abrasion protection**
